# REPORT OF TRUSTEES.

---

STATE LUNATIC ASYLUM,  
Near Milledgeville, Ga., October 14, 1878.

To His Excellency ALFRED H. COLQUITT,

*Governor of Georgia:*

SIR: The Trustees of the Lunatic Asylum, respectfully submit this, as the Annual Report for the ten (10) months, extending from December 1st, 1877, to September 30th, 1878, both inclusive—the end of the fiscal year of this Institution, as stated in our Report for 1877, having been changed from 1st December to 1st October, in each year, to conform to the meeting of the Legislature, under the new Constitution.

We also submit herewith the Reports for the same time of the Superintendent and Steward of said Institution, which we believe will furnish your Excellency and the Legislature all information in detail that may be desired, of the operations and conduct of the Asylum; the report of the Treasurer is not, as usual, herewith submitted, as B. R. Herty, Esq., our late worthy and efficient Treasurer, departed this life on the 7th of October, 1878, three days before the time when his Annual Report should have been submitted, and in consequence of his sickness and death, it was not prepared. The absence of his report, however, will not prevent a full understanding of the operations of the Asylum, as his books and monied transactions agree exactly with those of the Steward, so that they can be fully understood by reference to the Report of the Steward.

From the reports herewith submitted, it appears that the expenses of maintenance of every kind for the ten (10) months is seventy-three thousand two hundred and ninety-one dollars and forty-one cents (\$73,291 41), for an average of about seven hundred and twenty-five (725) patients for the ten months; the number on the 1st of December, 1877, having been six hundred and seventy-three (673), and increasing to seven hundred and forty-two (742) on the 1st October,

1878; the expenses *per capita, per diem*, including everything, being thirty-four cents and 55-100. While the expenses of the Institution have thus been lessened, the Trustees, with confidence, assert that its organization and management were never more efficient than now, nor the inmates better provided with food and raiment, and all else tending to administer to the wants of mind and body. It is with pleasure they acknowledge that this state of efficiency is in a great degree owing to the improvements introduced by the late Dr. James F. Bozeman and his associates, some years since.

Of the amount appropriated by the Legislature, for the maintenance of the Asylum for the twenty-two months from December 1st, 1876, to October 1st, 1878, \$40,625.00 has not been drawn from the Treasury, and which amount unexpended will be still further increased by December 1st, 1878, as will appear by reference to the Report of the Steward, while the average number of patients in the Asylum has been fully one hundred in excess of the number in the Institution at the time the appropriations were made. This reduction in the current expenses is owing to the lower cost of supplies of all kinds, and more rigid economy introduced in every direction where it could properly be done.

At first sight, it may seem that the item of *wages* is unnecessarily large, but this will be found to be more apparent than real, as this item embraces not only the pay of the ordinary laborers engaged upon the farm, garden, and in other like employments, but also of those who do the cutting and hauling of wood for this large establishment, of those who make the gas, and of the laborers in the laundries and machine shops, of the carpenters and the cooks, and of nearly seventy attendants and nurses for the patients.

Since the Institution was made free to all the citizens of Georgia, many persons decrepit both in body and mind—men, women and children—are brought to the Asylum almost *in extremis*, frequently living a few days only after admittance; still, they cannot be turned away, as they are committed according to the forms of law, and humanity forbids

that they should not be cared for. These cause a considerable addition to the expense account under the item of labor, in providing for their wants.

In the Report of the Trustees to Governor Smith, in 1874, on the sixth page, attention is called to claims due the Asylum by "the States of Alabama and Florida, for the maintenance of indigent citizens of those States, and duly committed under their statutes." The claims against the State of Florida have been adjusted and paid, but we regret to be compelled to add that the repeated efforts of the Trustees, first to the Governor, and then to the Legislature of the State of Alabama, have failed to produce any favorable result, and we have been unable to obtain any settlement whatever of the account. The amount due by the State of Alabama, on the 1st October, 1878, was eighteen thousand and twenty-nine dollars and twenty-one cents, (\$18,029.21), and four (4) of the patients from that State still remain in the Institution, and are cared for as our own citizens are; hence, the amount of the indebtedness of that State is increasing day by day. The Trustees deem it their duty to bring this matter to the attention of your Excellency, as all means in their power to obtain liquidation or payment of the amount have been exhausted.

The following appropriations are asked for, for the year extending from the 1st December, 1878, to 1st December, 1879:

## ESTIMATE FOR MAINTENANCE FOR 1879.

Subsistence . . . . .	\$37,000 00
Clothing . . . . .	7,000 00
Fuel and Transportation . . . . .	8,500 00
Salaries . . . . .	10,500 00
Wages . . . . .	24,000 00
Medical Supplies . . . . .	1,250 00
Repairs, ordinary and extraordinary . . . . .	10,500 00
Stationery and Postage . . . . .	250 00
Contingencies . . . . .	1,000 00
	<hr/>
	\$100,000 00
Add 10 per cent., estimated increase of patients . . . . .	10,000 00
	<hr/>
	\$110,000 00

Heretofore some amounts, although not large, have been realized from *pay patients*, but as the Asylum is now free to all the citizens of the State, and inasmuch as the Trustees have collected all, or very nearly all, of the outstanding debts due the Asylum, it will have to rely entirely for its support for the next year upon the appropriations to be made by the Legislature; still, the amount asked for is not as large by nearly seven thousand dollars (\$7,000.00) as was the appropriation for maintenance made for the year 1875, when there were 595 inmates only, 147 less than were in the Institution on October 1st, 1878.

In addition to the above appropriation required for the ordinary expenses of the Institution, the Trustees ask permission to use twenty-five thousand dollars (\$25,000.00), or so much thereof, as may be necessary, of the unexpended Appropriations made for the maintenance of the Asylum, up to December 1st, 1878, to enlarge the buildings for the colored patients, to finish and fit up a number of rooms in the main building, which may be made available; to remove the remains of the plastering, and make repairs to the front and other parts of the main building, and also other necessary enlargements and improvements. The enlargement of the buildings occupied by the negroes, is an immediate and pressing want; those now in use are too much crowded, and a number of colored persons have been committed in various counties of the State, to be sent to the Asylum, who are now confined in jail in their respective counties, because there is not room in the Asylum to accommodate them. Although the sum of forty thousand, six hundred and twenty-five (\$40,625.00) dollars has been appropriated and is in the Treasury subject to the draft of the Trustees, still as the appropriation was made for the ordinary maintenance of the Institution, after consultation with your Excellency and the Attorney-General, the Trustees determined not to stretch the letter of the law, by diverting any part of this amount from the purpose for which it was appropriated, by using it in the construction of buildings and new improvements, but preferred

to ask the Legislature, through your Excellency, for authority to apply twenty-five thousand (\$25,000.00) dollars, or as much as may be necessary of the amount of the appropriation undrawn, for these purposes.

The officers of the Institution, generally, have performed their various duties to the satisfaction of the Board of Trustees, and were all re-elected for another year, except that, Mr. Thomas T. Windsor was elected Treasurer in place of B. R. Herty, deceased, and Rev. G. T. Goetchius, Chaplain, in place of Rev. J. H. Allen, who was not a candidate for re-election.

Before closing this report, the Trustees feel it their duty to again bring to the notice of the Legislature, a subject which seems to them of the greatest importance to the State and its citizens, so much so, that although it has often been suggested in the reports of the Trustees, and of the Superintendent, they again call the attention of the Legislature to it: By reference to this and former reports, it will appear that the number of inmates in the Lunatic Asylum is increasing about at the rate of seventy-five a year, so that by the end of 1879, the wards of this Institution, both those for white and colored patients, will be filled to their utmost capacity; what then shall become of this class of our unfortunate fellow-citizens, who shall be forced to seek this Asylum? And among them there will no doubt be some of the best people of the State, as is now the case. Two plans only suggest themselves to the Trustees, either to found and erect a new Asylum, or to enlarge greatly the present one.

The Trustees do not think it proper that they should do more than present the matter to the attention of the Legislature, leaving to them the adoption of such measures as their wisdom may devise.

Respectfully submitted,

L. N. WHITTLE, *President*,  
R. L. MOTT,  
JAS. S. PINCKARD,  
T. F. NEWELL,  
S. P. MYRICK.

## SUPERINTENDENT'S REPORT.

---

STATE LUNATIC ASYLUM,  
Near Milledgeville, Ga., October 1, 1878.

TO L. N. WHITTLE, R. L. MOTT, JAMES S. PINCKARD,  
T. F. NEWELL, S. P. MYRICK,

*Trustees State Lunatic Asylum :*

GENTLEMEN—In compliance with your resolution, I herewith respectfully submit the Report of this Institution, embracing the period from December 1st, 1877, to October 1st, 1878, including such reports from subordinate officers, tables, etc., as may be desirable to furnish satisfactory information, in relation to the operations within the period stated, present condition, and wants of the Institution. And in submitting this report I would not be forgetful of the obligation to render unfeigned thanks to the beneficent author of all our mercies, whose kindness has brought us through this period in the enjoyment of freedom from any serious disaster, and having realized a very fair amount of success in the promotion of the general welfare of the Institution and the amelioration of the condition of its unfortunate inmates, whose condition, of all the ills to which mankind are subject, is most to be deplored, and more urgently pleads for our sympathy and kind offices.

Within the period embraced in this report we have, with a brief interval, suffered as heretofore, the evils of an over crowded institution, and have reached a period, at which, if it is the purpose of the State to make provision for the care of all the lunatics, epileptics and idiots within its borders, (not to mention demented inebriates whom the law demands should be received), when some extension of the buildings required for their accommodation must be made. And if a separate Institution for the care of the idiots, as heretofore previously and repeatedly urged cannot be secured, then it would

be best to erect at some point in the Northeastern section of the State, a comparatively small Institution for the reception of all the different classes, which may be subsequently extended as necessity requires. I should deprecate any extension of this Institution for whites. Unhappily, there is a manifest increase of these maladies throughout the country. I know of no public institution of the kind in the United States, from which the complaint of being over crowded does not come. Our department for colored patients has been in such condition for several months, and we have a number of applications, for the reception of that class of patients on record—awaiting the occurrence of vacancies. With the only buildings we have that can be allotted to them, we shall continue to be unable to meet the demands upon us for their admission. And if we are required to continue to receive them, those buildings must be enlarged. But that it would appear scarcely worth while, from our past experience, I would again urge the positive necessity, that there should be some such modification of the law as would protect the Institution from the serious imposition that is very frequently practiced, of emptying the county poor houses into it. Upon the establishment of the merest shade of mental disorder or imbecility, the lame, the halt, the blind, and well nigh dying, are readily sent to the Asylum. And if committed according to the forms of law, we must receive them, and cannot discharge them, so long as unable to certify that they are of sound mind. And their presence in the Institution may, and indeed has operated the exclusion of dangerous lunatics and the subjects of recent mania, whose restoration might reasonably be expected, if they could be promptly placed in favorable circumstances for treatment. The general operations of the Institution have been satisfactorily conducted, and gradual improvement effected in every department of its affairs. The recent work accomplished for more thoroughly heating the Institution, and the renewing the floors in the old building in the Female Department are specially valuable improvements.

I would again suggest the propriety of endeavoring to obtain from the approaching Legislature a special appropriation of fifteen hundred dollars, for removing the fragments of mastic remaining on the front surface of the centre building and wings, and suitably painting such surfaces, unless the Board should feel warranted in providing for such expenditures.

---

STATEMENT IN RELATION TO NUMBER OF PATIENTS DURING THE PAST TEN MONTHS.

There remained on hand December 1st, 1877 . . . . .	673
Comprised of Lunatics . . . . .	555
Idiots . . . . .	74
Epileptics . . . . .	44—673

“ Females . . . . .	79
Colored Males . . . . .	11
“ Females . . . . .	22—219

---

Number during the year . . . . .	892
Of whom there have been discharged . . . . .	50
Removed much improved . . . . .	2
“ improved . . . . .	14
“ unimproved . . . . .	7
Eloped . . . . .	13
Died . . . . .	64—150

---

Leaving on hand 1st October 1878 . . . . .	742
Comprised of Lunatics . . . . .	597
Idiots . . . . .	93
Epileptics . . . . .	52—742

Of the deaths 12 resulted from Paralysis, 13 from Epilepsy, 12 from Marasums, 3 from Apoplexy, quite a number from old age and general debility, worn out by the long existence of disease, many brought to the Asylum, with no reasonable ground for hope, that they could survive beyond a few days, or weeks at most. A state of things for which there surely ought to be some remedy.

With grateful acknowledgments of the kindness of the Board of Trustees to myself personally, and high appreciation of their constant and earnest efforts to render the Institution a power, in the amelioration of the most pitiable of all the forms of human suffering; and most sincere thanks to all who have kindly co-operated in the noble work,

I remain, gentlemen,

Your obedient servant,

THOMAS F. GREEN,

*Superintendent and Resident Physician.*

## STEWARD'S REPORT.

---

STATE LUNATIC ASYLUM,  
Near Milledgeville, Ga., October 1, 1878.

THOMAS F. GREEN, M. D., *Superintendent, etc.*:

SIR: I have the honor herewith to transmit, through you, to the Honorable Board of Trustees of the Asylum, this my Report, as Steward, embracing the period commencing the 1st of December, 1877, and ending 30th of September, 1878, both inclusive.

Abstract A, shows amount brought forward from last report of last year, amount of moneys received by me from all miscellaneous sources outside the general appropriation, and the amount drawn from the State Treasury, upon my requisition, by B. R. Herty, Esq., our Treasurer; together with a classified statement of the disbursements, and the amount carried forward to the 1st October, 1878.

Abstract B, shows all money received by me this year from all miscellaneous sources, not consolidated, however, but in detail, and my payments of the same over to B. R. Herty, Esq., our Treasurer, and for which I hold his receipts.

Abstract C, shows exactly what money was drawn from the State Treasury, giving date of the requisition, and the month the requisition was drawn for. To illustrate: Our last requisition was dated 10th September, 1878, but the money drawn was appropriated for the month of May, 1878, and the requisition, as in fact all have, states plainly upon its face, what month's appropriation we were drawing. This abstract also shows what we will have to draw to complete twelve months, and what will remain in the State Treasury to our credit 1st December, 1878.

Abstract D, shows the balances brought forward from last report on Special Appropriations for the year 1877, what has been paid out during the present year, and the amount remaining on hand 1st October, 1878.

Abstract E, is the Gardner's Report.

Abstract F, is the return of Mr. J. T. Farell, of the farm and outdoor laborers.

Abstract G, is a statement of stock, wagons, etc., on hand.

Abstract H, shows all boxes, bundles, packages, etc., received by me for patients during the year, giving date of reception, who for and to whom delivered.

The same manner of purchasing the supplies has been continued. Advertising for sealed proposals to furnish, and awarding to the lowest bidder.

By receiving our money monthly, we have had the advantage of net cash purchases. We always endeavor to purchase direct from fountain-head, get all discounts off, and save all middlemen profits to the institution. All of my books, vouchers, etc., have been examined by General S. P. Myrick, one of the members of the Auditing Committee, of the Board of Trustees, found the same correct, were duly audited by him and duplicate vouchers will be forwarded to His Excellency the Governor, for file in the Executive Department, in accordance with law.

Our *per capita per diem* for furnishing everything is thirty-four 55-100 cents.

Our wages appear large at first glance, but then by direction of the former Board, I have had to put everything drawing wages under that head, let us examine it for a moment. Mr. Wileox, the Engineer, the Assistants in the Engine Department, the regular Carpenters, the Blacksmiths, Mr. Farell, who has charge of the farm hands, Mr. Humphrys, Gardner, all the teamsters, stablers, cow-milkers, cart-boys, etc., comes under wages; deduct them and throw them under Ordinary Repairs, Fuel, Transportation, Subsistence; all the laundry hands, under clothing, etc., etc., and you bring it down directly. All I ask is to analyze Wages and see what for, how employed, and I am clearly of the opinion any reasonable mind would be satisfied. Besides, one of the great objects of this institution is the taking care of the unfortunate lunatic, idiot and epileptic. This is an asylum for that pur-

pose. Can any one complain of the present *per capita* cost?

Pardon me for merely alluding to some few things done under ordinary and extraordinary repairs. We have remodeled the main steam pipes and connections—placed in two condensers for utilizing radiator waste; we have put up 256 panel of fencing; we have built, and have ready to put up thirty-one new radiators for heating the old male building and the new male and female wings. A new fifty horse power boiler has been made and nearly put up complete in its place for heating purposes. A new pump and piping has been purchased ready to be attached to the creek for our water works, should it become necessary next summer. Reflooring, etc., of the old female building, and making them nearly as good as new; we have used up nearly fifty thousand feet of lumber. I respectfully ask the Board of Trustees to examine this work and see what has been done for themselves. The work has been under the charge of Mr. Wilcox.

We carry forward cash on hand 1st October, 1878, \$6,-168.01, and Mr. Orme, Assistant Steward, reports goods on hand paid for 1st October, 1878, \$1,440.78-100. By reference to Abstract C, it will be seen that we went on and drew out all of last year's appropriation, then commenced on the new, and gone on regularly. This abstract was made to show to the Trustees at a glance, exactly how we stood with the State Treasury, what other money would have to be drawn, and what would remain 1st December, 1878. That abstract shows that we will have to draw two months more to bring us up to the 1st of December; these months will be June and July, after which of the saving of the last two years, we will leave in the Treasury, subject to your order 1st December, 1878:

Five months, Aug., Sept., Oct., Nov. and Dec.	\$8,125 . . . .	\$40,625.00
The 10 per cent. additional for increase of patients . . . . .		9,750.00
Amounting in the aggregate to . . . . .		<u>\$50,375.00</u>

All of which is respectfully submitted.

JOHN HAMMOND,

*Steward.*

## REPORT OF TRUSTEES.

---

STATE LUNATIC ASYLUM,  
Near Milledgeville, Ga., October 10, 1879.

To His Excellency ALFRED H. COLQUITT,

*Governor of Georgia :*

SIR: The undersigned respectfully present the following as the Annual Report of the Trustees of the Lunatic Asylum, for the year extending from October 1st, 1878, to September 30th, 1879, both dates inclusive.

They also submit herewith the Annual Reports for the same time of the Superintendent, Steward and Assistant Steward, Treasurer, Chaplain and Matron, which, with their exhibits, will furnish a full understanding of the working of the Institution for the year.

From these reports it will be seen that the expenses of maintenance of every kind, including also the cost of rebuilding the stable and barns, the purchase of about twenty-five acres of land, with three houses, the purchase of which was necessary to protect our buildings, owing to proximity, and the pay for six months of a fourth physician, whose employment was found necessary, has been, \$89,629.19, for an average of seven hundred and forty-eight patients during the year, making the expense *per capita, per diem*, thirty-two and nine-tenth cents—rather less than for the year previous.

This low rate of expense for maintaining the patients, which it is believed is as low, if not lower, than in any other like Institution in the Southern States, it is feared may not be maintained in the future, as already there is some increase in the price of provisions and other necessary supplies, which may continue to appreciate and thus increase the expense of maintenance.

The improvements contemplated by the Legislature, and for which a special appropriation was made, were commenced soon after the Act was passed, and are progressing satisfactorily; the use of the brick and other materials from the old penitentiary, will prove, as was anticipated, a saving of several thousand dollars to the State, and insure the completion of the buildings at an earlier day.

The Trustees propose, during the coming year, to add to the facilities for improving the "moral treatment" of the patients, as recommended by the Superintendent in his report, so far as the means at their command will allow.

None of the buildings or other property connected with the Asylum, are under insurance, and it seems to be the policy of the State to assume the risk herself, as no insurance has been effected upon the property since the war, if at any time before; some of the Trustees when they appeared before the committees of the Legislature, in the month of July last, brought this matter to their attention and suggested that some action be taken by the Legislature upon the subject, so that the Trustees might be instructed whether to have insurance effected or not; but as no action has yet been taken, they think it proper thus to bring the subject formally to the notice of your Excellency.

The Trustees are satisfied with the management of the Institution for the last year, and feel assured that its general condition, in all its departments, is being steadily improved, and that it is as well organized and conducted as ever before; although complaint of maltreatment and neglect of one patient has been made to the Legislature, the Trustees are unanimously of the opinion, after fully investigating the facts and circumstances of the case, that the charges are groundless, and that the officers and employees of the Institution, especially those in immediate charge of the patient, are free from blame in the matter.

Since the last Report of the Trustees, the venerable Dr. Thomas F. Green, for more than thirty-three years the Superintendent and Resident Physician of the Georgia Lunatic Asylum, has departed this life. On Tuesday, 11th February, 1879, he appeared in his usual health and was performing his daily routine of duties, and while thus engaged in the afternoon of that day,

fell upon the floor, stricken with apoplexy. Although every attention was given him, he had two other attacks and died on the morning of the following Thursday, the 13th of February, 1879; aged 74 years, 1 month and 18 days.

Dr. Green had seen the Institution grow up under his fostering care, from a small affair with only about sixty patients, to its present dimensions, with seven hundred and thirty-eight inmates under his treatment, and had for years looked upon it, and acted towards it, as his child; in rearing this magnificent monument of the State's charity, he not only illustrated his own life, but as well, the State of Georgia.

Since the last report, the Institution, in the death of Col. James S. Pinckard, one of the Board of Trustees for nearly five years, has also met with a great loss. Col. Pinckard, like Dr. Green, seemed in full health till a day or two before his death, when on July 27th, 1879, he quietly and suddenly passed away. Aged 69 years, 4 months and 4 days.

His life had been one of quiet, unselfish usefulness in his sphere, and few, if any, purer or better citizens have lived or died in Georgia, his native State.

Respectfully submitted,

L. N. WHITTLE, *President*,

R. L. MOTT,

T. F. NEWELL,

S. P. MYRICK,

W. H. HALL, M. D.

## SUPERINTENDENT'S REPORT.

---

STATE LUNATIC ASYLUM,  
Near Milledgeville, Ga., October 1st, 1879.

*To the Trustees of the Georgia Lunatic Asylum:*

GENTLEMEN: As you are aware, Dr. Thomas F. Green, the Superintendent of this Institution for thirty-three years, died on the 13th of February, 1879, and the duties devolved upon me as Superintendent, *pro tempore*, until your meeting of the 21st February, when I was elected as his successor. In the death of Dr. Green this Institution lost a faithful Superintendent, and the community a valuable citizen. Due and proper tribute was made to the memory of this good man. His portrait hangs on the wall of our public parlor, a blank leaf with name, date of birth, death, and time he was the Superintendent, with photograph, form a page of your minutes, and a resolution has passed your body to erect a tablet as a tribute to his memory.

In conformity with the requirements of the law, I have the honor herewith, respectfully, to submit for your consideration the Annual Report of this Institution, together with the Steward's, Treasurer's, and other officers, giving a detail account of its operations and management from the 1st of October, 1878, to the 30th September, 1879, both inclusive.

On the 1st of October, 1878, there were seven hundred and forty-two patients in the Institution. During the year we have received two hundred and nine. There have died and been discharged one hundred and ninety-seven; leaving on hand 1st of October, 1879, seven hundred and fifty-four. The average number of patients in the Institution and under treatment was seven hundred and forty-eight, while the whole number who have had its benefits during the year, was nine hundred and fifty-one.

*Statement in relation to number of Patients during the past twelve months, or from 1st October, 1878, to 30th September, 1879, both inclusive :*

There remained on hand 1st October, 1878, . . . . .	742
Comprised of Lunatics . . . . .	597
Idiots . . . . .	93
Epileptics . . . . .	52—742

There have been received since :

White Males . . . . .	106
White Females. . . . .	80—186
Colored Males . . . . .	10
Colored Females . . . . .	13— 23—209

Making number during year . . . . .	951
Of whom there have been discharged, restored . . . . .	64
Removed much improved . . . . .	12
Removed improved . . . . .	16
Removed unimproved . . . . .	7
Eloped . . . . .	8
	107
Died . . . . .	90—197

Leaving on hand 1st October, 1879, . . . . .	754
Comprised of white Male Lunatics . . . . .	261
White Female Lunatics . . . . .	232—493
Colored Male Lunatics . . . . .	34
Colored Female Lunatics . . . . .	43— 77—570
White Male Epileptics . . . . .	49
White Female Epileptics . . . . .	32— 81
Colored Male Epileptics . . . . .	13
Colored Female Epileptics . . . . .	5— 18— 99
White Male Idiots . . . . .	25
White Female Idiots . . . . .	45— 70
Colored Male Idiots . . . . .	8
Colored Female Idiots . . . . .	7— 15— 85
	754

For the past twelve or eighteen months we have been so crowded in the negro department that we could only receive the colored insane, as vancancies occurred; we have now on file—

Application for Colored Males . . . . .	21
Application for Colored Females . . . . .	26
Application for Colored, sex not given . . . . .	9

Up to this time we have received all recent or dangerous cases of whites. We are being very much crowded, and principally with the chronic and almost incurable cases. I very much fear that if they continue to come in, as they have done in the past few months, other provisions will have to be made.

Of the deaths, thirty resulted from epilepsy, sixteen from paralysis, eight from general debility and old age, nine from marasmus, seven from exhausted mania, six from chronic dysentery, three from phthisis, three from apoplexy, two from heart disease, one from nervous prostration, one from cholera morbus, one from erysipelas, one from carbuncle, one from measles, and one from pneumonia. Although the cares and anxieties of the Institution have been constant and great, we have much to make us truly grateful to a kind and merciful Providence. Notwithstanding we have a large number of suicidal and pyromaniacal cases, we have met with no serious accident. The death rate appears large, but upon examining the causes it will be seen that only a very few resulted from acute or curable diseases, and then it must be remembered that many were brought upon us almost *in extremis*, some of them living but a short time after reception, many others having their constitution broken down by long duration of mental disease.

#### IMPROVEMENTS.

Your frequent visits and examinations, render it unnecessary to enter into a minute description of improvements, but not so with the public generally; they obtain their information through our reports, and this must be my apology for entering into detail

#### SEWERS AND WATER CLOSETS.

Four hundred and thirty-four feet of twelve inch sewer pipe have been laid on the west end of main sewer, leading from the female buildings, which makes the outlet one thousand two hundred feet from the buildings.

Twelve hundred square feet of surface drain, built of brick, laid in cement mortar, running parallel with the male and female new wings.

Two surface drain traps in the wing basements prevent the

escape of sewer gas into the buildings, affords a convenient means of removing any obstructions from the sewer, and allows a free escape of surface water, which aids in washing out the sewer.

The soil pipe with branches for six water closets are up and in use. The improvement consists in an open pipe from sewer to roof of building; traps under the cones, in connection with the surface traps above mentioned, makes the soil pipe a ventilating shaft for the sewer.

Soil pipes in the two old buildings, and the two old wings, water-closets have been extended from the floor of upper wards to the roof of building. Want of suitable cones to these soil pipes make them imperfect ventilators, and were it not for an almost constant flow of water into these cones, the air of the closets would be very impure. All the cones, *save one*, are now connected with cold water pipes, and key-valves that regulate the amount of water to be used.

Eleven cast iron bath tubs were put up, with an improved hot and cold water supply, waste and overflow, which locks up the supply pipes, preventing waste of water. The waste valve acts as a trap, preventing the entrance of sewer gas into the bath tubs, and obstructions into the waste pipe. An arrangement that saves us much time and expense in pulling down pipes to remove obstructions. A better system of plumbing is being substituted for the old, as it become necessary to remove the old.

Water closet and fixtures put up at the machine shop, with ninety feet of six-inch sewer pipe, connecting with the laundry sewer, a small trap outside the building, makes a convenient means of removing any obstruction in the sewer, and receives the waste water from the exhaust pipe after it passes through the heater.

Hot water tanks, located in the air-ducts, near the engine room, have been completed, cross-connected so as to *use one or both*. All the bath rooms are connected with these tanks. Covering with a non-conductor of heat, is all that is required to make the arrangement successful and economical as any heaters in use, and it has cost but a nominal sum, as the entire appa-

ratus was constructed here from old material. During cold weather three heaters are used in connection with our heating apparatus, giving us an amount of heat, that was usually lost from the hot well. Prior to the erection of these heaters, we lost the benefit of the return, or condensed steam for boiler feed.

#### INDIRECT RADIATION.

During the summer twenty-two vertical radiators in the old main male buildings have been cased in with wood, with a view of confining the heat of each radiator to the particular space to be heated. Last winter the stoves were removed, and the radiators used without casing; a comparatively good result was given; a still better result will be obtained this winter.

Six new vertical radiators were added to the old female building, to complete the amount of heating surface required. All are now cased in, and ready for duty. The return pipe in this building is not satisfactory, but will be made like that in the old male building next summer.

Seven vertical radiators that were built last summer have been put in the *two new wing buildings*, and will be ready for duty this winter.

Eight hundred feet of main steam pipe have been covered with hair and wool back felt; four hundred feet of main steam pipe is without felt covering, but we hope to have it on by winter. This will prove a valuable addition to the heating apparatus, and its use this winter will show the necessity of its general adoption for branch pipes, as well as main lines.

One 40-horse power, return tubular boiler was added last winter, to supply steam to additional radiators.

Our four boilers are now cross-connected, so that any one can be used separately, or all jointly. The blow-off to each boiler is connected to an underground sewer, that takes the water that is blown from the boilers outside of the enclosure.

#### STAIR-WAYS.

An improvement has been made in the recreation hall, between the old and new female buildings, by dividing these halls by lattice partitions, and a stair-way between them, giving a

straight, broad stair-way at a central point of the female wing. This change has enabled us to abandon the old stair-ways at the West end of the old building, and convert the space into three rooms for patients.

Eighteen wire window guards were put in. Rebuilt barn and stables.

One experimental strong room, made with cement lining has been in use for several months, and gives satisfaction.

This work, that is under improvements above mentioned and enumerated, has been under the Engineer, Capt. Wilcox, who has been faithful in the discharge of his duties.

Considerable painting has been done by attendants, in the male wards; also building and repairing fences about the premises. The back yards are being laid off in walks, drives, and plots, turfed with grass, in two of which two small fountains have been erected, without the loss of any water. This work was done principally by attendants and patients. We hope to complete the work next spring.

The relaying of the flooring of the old male building cannot be deferred much longer. The Chapel also needs some repairing.

As soon as practicable after the appropriation was made to enlarge the building for the colored insane, the services of Maj. Fuss, a competent architect, was engaged, and we are very much pleased with the zeal he has manifested in planning and executing the work. We hope to be able soon to accommodate all the colored insane of the State.

#### MORAL TREATMENT.

Under the head of Moral Treatment must be considered all those means that tend to lead the mind into a normal or healthy channel, thereby directing the thoughts from the morbid, self-contemplations, insane delusions, etc. A variety of occupations, amusements, and entertainments, are a part of the varied means which are certain to aid in the restoration of the acute and curable. Hence the necessity of amusement halls. It is generally conceded by all who have the care of the insane, that amusement halls are requisite, and indispensable, not only in breaking

the monotony of asylum life, but it is an important factor in the restoration of the curable, and in promoting the improvement and happiness of the incurable. The necessity of an amusement hall is obvious, and I hope it is only a question of little time in our having a commodious and well arranged hall. A ten-pin alley would certainly be a valuable acquisition. I am glad to say that arrangements are being made to put the billiard table in order, and to get a pianoforte. These curative agencies should judiciously surround the insane. Music is magical in its softening and soothing influences; amusements should be numerous, elevated and diversified. Lifeless and cheerless monotony should not exist in an institution of this kind. It would be well if every day or night would bring some entertainment or amusement, to awake or arouse the slumbering senses and engage them in pleasant diversion, shaking off dejection, vanishing hallucinations, dispelling the routine, and giving relief and pleasure.

We are very much in need of a well filled library. I hope I may have the co-operation of your board in getting a variety of these restorative means. It is an acknowledged fact that suitable varieties of entertainments, occupations and amusements will diminish the morbid feelings and tendencies, and frequently act more satisfactorily than drugs, in producing profound sleep and mental restoration.

We have endeavored to induce, by encouragement, as many as possible to engage in some useful employment as far as the means of the Asylum would allow. There is no doubt about the propriety or expediency of occupying many with decided beneficial results. Man's powers, mental and physical, were given for use; the development of those powers require that they should be exercised to retain their integrity, and perform their proper functions. Some were employed in the kitchen, laundry, engine house, and others in the flower garden, yards and vegetable garden, and many were happily employed in the female department, in sewing, etc. These employments were suited to their taste and habits.

All of the powers and faculties that are not entirely lost should have some employment, to strengthen and vitalize them, giving

also direction to the powers that are changed or perverted by this morbid condition.

We have made every effort we could, under the circumstances, in the way of diversions of different kinds. Theatrical performances, games, tableaux, dancing, picnics, etc., in which a large number of patients participated.

ACKNOWLEDGEMENTS TO THOSE WHO HAVE AIDED US IN  
THIS DIRECTION.

We feel under many obligations to Col. Miller Grieve, of Milledgeville, and his Dramatic Club, for the elegant entertainment they gave us. It was highly appreciated, and enjoyed by patients, officers and employees. We also express our thanks to Col. Hunter, and a number of the young ladies of Milledgeville, for the fine musical entertainments and tableaux they have given us from time to time, during the year. We take pleasure in expressing our thanks to the Misses Cox, and other young ladies, of LaGrange, Ga., for their delightful musical entertainment. To Mr. and Mrs. Orme, who have conducted, almost regularly, devotional Sunday evening singing in the Chapel, in which all were invited to join. I am satisfied that all who attended those singings have enjoyed them very much indeed. Sunday evenings would be very sad and gloomy to many without them.

For the floral beauty of our front yard, which has been a constant pleasure and relief to our unfortunate charge, we are indebted to Mr. P. J. Berckmans, of Augusta, Ga., for his large and frequent donations.

To Mr. John A. Orme for a large lot of books and magazines; indeed this is the only library we have. I hope it will not be long before we will be placed under similar obligations to others.

The amount appropriated by your board for newspapers, periodicals, etc., was wise and judicious, and I hope if in your judgment we are able, it will be continued.

To the various editors who have been so generous as to send us their papers, we return our thanks.

Rev. George Goetchius served us faithfully and satisfactorily as chaplain up to the date of his resignation.

I take great pleasure in thanking Rev. Mr. Stoney, our chaplain, for the interest he has manifested in the discharge of his duties; he has had services regularly Sundays and Wednesday evenings, visited the sick and buried the dead. The patients who are in a condition to attend, look forward to the services with a great deal of pleasure. To say nothing of its religious character, it is a valuable auxiliary in their treatment.

It is with great pleasure that I acknowledge the valuable assistance and co-operation of my officers, in discharging the responsible duties of my office.

To you, gentlemen, I offer my sincere and heartfelt thanks for the uniform kindness and consideration which you have extended to me, trusting in the future, as in the past, to the guidance of a wise and merciful Providence.

I am very respectfully,

T. O. POWELL,

*Superintendent, Etc.*

## STEWARD'S REPORT.

---

STATE LUNATIC ASYLUM,  
Near Milledgeville, Ga., October 1st, 1879.

T. O. POWELL, M. D., *Superintendent, etc.* :

SIR—I have the honor herewith to transmit, through you, to the honorable Board of Trustees of the Asylum, this my report as Steward, embracing the period commencing the 1st of October, 1878, and ending 30th September, 1879, both inclusive.

Abstract A, shows amount drawn from the State Treasury, upon my requisition, by T. T. Windsor, Esq., our Treasurer, amount collected from the estate of B. R. Herty, deceased, our former Treasurer, and the amount received by me from miscellaneous sources outside the general appropriation, and shown in detail in Abstract B, together with a classified statement of the disbursements, and the amount carried forward to 1st October, 1879.

Abstract B, shows all money received by me this year, from all miscellaneous sources, not consolidated, however, but in detail, and my payments of the same over to T. T. Windsor, Esq., our Treasurer, and for which I hold his receipts.

Abstract C, shows balance left to credit of the Asylum in the State Treasury, 1st October, 1878, the amount appropriated for the Asylum fiscal year, that is, from 1st October, 1878, to 30th September, 1879, both inclusive, the amount drawn by our Treasurer, by requisition from me on the same, and the amount left undrawn in the State Treasury 1st October, 1879.

Abstract D, shows the balance brought forward from last report on special appropriations for the year 1877, what has been paid out during the present year, and the amount remaining on hand 1st October 1879.

Abstract E, shows the amount due by the estate of B. R. Herty, our former Treasurer, the payments made on the same, and the balance due, interest to be adjusted on final payment.

Abstract F, is the Gardener's Report.

Abstract G, is the return of Mr. J. T. Farrell, of the farm and outdoor laborers.

Abstract H, is a statement of stock, wagons, etc., on hand.

Abstract I, shows all boxes, bundles, packages, etc., received by me for patients during the year, giving date of reception, who for and to whom delivered.

The same manner of purchasing the supplies has been continued. Advertising for sealed proposals to furnish, and awarding to the lowest bidder.

We have received our money monthly and thereby had the advantage of cash purchases. We always endeavor to purchase direct from fountain head, get all discounts off and save all middlemen profits to the Institution. All of my books, vouchers, etc., have been examined by General S. P. Myrick, one of the members of the Auditing Committee of the Board of Trustees, found the same correct, were duly audited by him, and duplicate vouchers will be forwarded to His Excellency, the Governor, for file in the Executive Department, in accordance with law.

Our *per capita per diem* for furnishing everything is thirty-two and nine-tenths cents.

Our wages appear large at first glance, but I can but repeat what I said in a former report, that by direction of the former Board, I have had to put everything drawing wages under that head. Let us examine it for a moment. Mr. Wilcox, the Engineer, the Assistants in the Engine Department, the regular carpenters, the blacksmiths, all the teamsters, Mr. Farrell, who has charge of farm hands, Mr. Humphreys, the Gardener, stabler, milkers, cooks, cart-boys, etc., all come under wages; deduct them and throw them under Ordinary Repairs, Fuel, Transportation and Subsistence; all the laundry hands, under clothing, etc., and you bring it down directly. All I ask is to analyze wages and see what for, how employed, and I am clearly of the opinion any reasonable mind would be satisfied.

We have built stable and barns costing about \$750.00; we have also had six months salary of Third Assistant Physician to meet, \$750.00. We have paid Mrs. Martha H. Green for the purchase of land, etc., \$600.00; the aggregate is \$2,100.00,

but it is all paid for and included in the thirty-two and ninth-tenths cents *per capita per diem*.

We carry forward cash on hand, 1st October, 1879, \$131.45, and Mr. Orme, Assistant Steward, reports goods on hand paid for, 1st October, 1879, \$1,255.15.

By reference to Abstract C, it will be seen that the Asylum has to its credit in the State Treasury, 1st October, 1879, \$35,000.00, exclusive of this year's appropriation.

All of which is respectfully submitted,

JOHN HAMMOND, *Steward*.

## ABSTRACTS.

THOMAS T. WINDSOR, *Treasurer*.

MILLEDGEVILLE, GA.

## CHAPLAIN'S REPORT.

*To the Honorable Board of Trustees of the Georgia State Lunatic Asylum :*

GENTLEMEN: I have the honor, herein of submitting my report: This report contains the account of the services I have rendered the Asylum from the first of July last, at which time I was appointed to the position of Chaplain by your honorable body.

I have officiated regularly, twice a week in the Chapel—once on Sunday and once on Wednesday evening. And I have obeyed, without exception, the calls of the Superintendent to bury the dead or visit the sick.

Allow me to call your attention to two matters connected with my office, that doubtless our honored Superintendent will also mention, viz: The Chapel needs some repairs, and the Cemetery needs work upon it.

Yours respectfully,

J. M. STONEY, *Chaplain*.

MILLEDGEVILLE, GA., October 1st, 1879.

## MATRONS' REPORT.
